## TROOP PROPOSED FOR RUSHVILLE

Plans Made to Organize Cavalry to  
be one of Twelve to Form  
New Indiana Regiment

FIRST COME FIRST SERVED

John H. Kiplinger is Told of Plan  
in Letter From General  
Bridges

With the entrainment today of the Indiana National Guard for the Mexican border local interest in the Mexican situation received a boost by the announcement that an attempt would be made to organize a troop of cavalry in Rush county.

John H. Kiplinger is heading the movement here for the formation of a cavalry troop to be one of the twelve troops in the regiment recently authorized to be formed in Indiana as an added unit to the national guard.

Mr. Kiplinger has received a letter from Adjutant General Bridges in which it is stated that Washington has authorized the organization of a regiment of cavalry. It was stated that if it was desired to organize a troop it should be done at once as the first twelve troops which come properly officered will be accepted.

Troops to form the new regiment are now being organized at Fort Wayne and Evansville and it is believed that sufficient interest will be shown to make the organization here a success. Under the government regulations each troop of cavalry is composed of 100 men and three officers. Under the new Federal law the Indiana National Guard is entitled to 12,000 men and this proposed regiment will be a part of them.

It is believed here that the troop can be secured from Rushville and Rush county, but if necessary other counties will be asked to send recruits. There is not much chance of the new regiment getting to see service at this time, but for future use and as a means of training the men, the proposed troop here, according to those interested, would be a fine thing. The government furnishes all the equipment, including horses.

While no definite steps have been taken towards securing recruits, it is more than likely that something along this line will be started soon as it is necessary for the troop here to be one of the twelve if it is to get in on the new regiment.

## TAX EQUALIZATION DATES ARE FIXED

Rush County is in Group Which Will  
be Heard by State Board  
on July 25

TAXPAYERS MAY BE PRESENT

County Auditor A. R. Holden has received an announcement from the state board of tax commissioners fixing the dates on which it will take up the question of tax equalization in the various counties. Rush county is the first group of counties whose hearings will be held on Tuesday, July 25, beginning at 9:30 a. m.

The purpose of the meeting is to consider the assessments of the personal property of each county, for the purpose of equalizing the assessments and for the purpose of considering the matter of increasing the assessments of personal property, and to determine the rates of addition of reduction from the listed valuation of this class of property.

The hearings are to be at the statehouse and the board's order warned that "this hearing should not be confused with hearings upon appeals from county boards of review, as its purpose is to equalize the various counties of the state and not to redress individual grievances." Taxpayers, however, may be present if they desire.

Reply Will be Made

NEGOTIATIONS TO BE BEGUN

It was also learned that negotiations with the Carranza government will be taken up through the customary diplomatic channels. It is probable Secretary Lansing will begin work at once on the reply to Carranza. It is possible he will have it ready to present to the cabinet tomorrow before he leaves for a month's vacation.

What the reply will embody was gone over thoroughly by the president and Lansing during a 45-minute talk. No inkling of its contents, however, could be learned.

## SPECIAL VENIRE FOR BUNCH TRIAL

Talesman Arrive From Henry County  
to be Examined for Jury  
in Muncie Graft Case

COULDN'T GET ONE THERE

(By United Press.)  
Muncie, Ind., July 6.—Six members of the special venire of twenty-five, drawn in Henry county this morning for the trial of Mayor Bunch for conspiracy to solicit and accept bribes, had arrived here at noon. The veniremen were summoned on application by Judge Alonzo Blair when it became evident Wednesday evening that an unbiased jury could not be obtained in Delaware county because of the wide publicity given the so-called city graft cases.

Efforts to seat some of the Delaware county veniremen this morning failed. All said they had opinions as to the guilt or innocence of the accused.

## MAY END IN WITHDRAWAL

Peaceful Note From Carranza Paves  
Way to This End

(By United Press.)  
Washington, July 6.—The American punitive expedition will not withdraw from Mexico merely on the strength of Carranza's friendly note, it was officially learned today. Indications were, however, that the document paved the way for discussion which may ultimately end in withdrawal and the establishment of border patrols by both countries. Any withdrawal is contingent upon Carranza's demonstration of ability to police northern Mexico.

## STANDS BY ITS ORIGINAL ORDER

War Department Holds Militia is  
Needed on Border While Nego-  
tiations Take Place

TO PROTECT AGAINST RAIDS

(By United Press.)  
Washington, July 6.—Though convinced that danger of war with Mexico has passed, the war department today stood by its original intention to send all the militiamen originally called, to the border.

It had been suggested that all forces not already entrained might be held at their base mobilization camp but the department said officially today there has been no change in plans and that none is in prospect.

Aside from the advantage of mobilization and the experience of border patrol the department deems it advisable to protect the border against raids while negotiations are in progress.

## WANT NO DELAY! ON STREET PAVING

County Commissioners Expected to  
Fight it out With First and  
Eleventh Street Contractor

HE WANTS TO HOLD UP WORK

The county commissioners expected to fight it out this afternoon with A. L. Tribble of Terre Haute in regard to the time for commencing work on the paving of First and Eleventh streets. A. L. Tribble & company was awarded the contracts for both improvements—the First street job at a cost of \$25,820 and the Eleventh street job at \$33,218.

The mayor and members of the city council were to appear before the commissioners late this afternoon and protest against any delay in paving First street with brick. The street would have been improved by the city, but the commissioners were allowed to go ahead with the work under the three-mile law with the understanding that it would be done this summer.

The contractor was here today and it was understood that he told several persons he expected to put the work off if possible. Some protested against giving him both contracts, but he promised to get started soon after the award was made. Tribble told the commissioners this afternoon to select the brick and he would begin work. They got busy at once.

## INDIANA GUARD IS CALLED TODAY

Entrainment Begins at Dawn and it  
is Expected First Soldiers Will  
be on Way by Night

DESTINATION IS UNKNOWN

Batteries A., B. and C. Will be First  
to Leave Camp Ralston at  
Fort Harrison

(By United Press.)  
Fort Benjamin Harrison, Indiana, July 6.—The entrainment of the Indiana National Guard mobilized at Camp Ralston began at dawn today and before tonight it is expected the first Indiana soldiers will be on their way to "somewhere on the Mexican border."

Entrainment orders were received by Lieutenant Colonel John T. Toffey, chief mustering officer, shortly after midnight but the guardsmen were not told until this morning. The orders as issued by Major General Barry of the central department authorized the movement of all Indiana troops "to the south," which means to the Mexican border. The exact destination will not be made public.

It will be several days before the entire guard can be entrained, according to officers. The artillery battalion consisting of Battery A. of Indianapolis, Battery B. of Purdue university and Battery C. of Lafayette began entraining this morning and will be the first to leave. The probable order of leaving for the rest of the troops, according to Lieut. Col. Toffey, is as follows:

Third infantry regiment, the special troops which consist of the Indianapolis signal corps, the field hospital company and the Frankfort ambulance company, then the First infantry regiment and the Second infantry regiment.

At two o'clock this afternoon the artillery battalion equipment had been loaded and it appeared that the first Indiana soldiers might get away before four o'clock this afternoon. The troops will travel over the Big Four via St. Louis in day coaches. While officials would say nothing there was a well defined rumor about Camp Ralston that the Indiana troops would go to Brownsville, Texas.

MANY NEW STUNTS EXPECTED

Cleveland, Ohio, July 6.—Ohioans are witnessing something new in the way of political stunts this summer in the gubernatorial campaign of display advertising used by George W. Shaw of Cleveland. Shaw, lawyer and business man, is a candidate for the Republican nomination for Governor, against Governor Frank B. Willis.

"One of the greatest advertising men in America is helping me," said Shaw. "This man has made a certain point a household word."

"I stand for certain definite reforms in government. We're advertising to the people of Ohio my brand of politics. If they like what I stand for they can vote for me; if they don't like it, they can vote for Governor Willis. I have no political organization."

"I'm running for Governor because I don't have to work all the time to make a living," said Shaw. Shaw, in his college days was famous as a half back on the Western Reserve football team.

The state public utility commission ruled yesterday afternoon, in the case of the petition of Richmond, asking for reduction in the price of automatic sprinkler service, ruled that all such private fire protection systems either standpipes, hose valves, automatic sprinklers or fire hydrants should be metered and that the minimum charge should be the regular minimum charge for meter service. The commission made the same order for Rushville but later revised it because it was found impossible to get meters that would fit on some of the service pipes leading to local private fire protection apparatus.

National Education Association Considers Better Pension System For Old Teachers.

## IS AFTER NATIONAL AID

Progress of Chinese Education is Discussed by Ambassador to This Country.

(By United Press.)

New York, July 6.—National aid for state normal schools, higher salaries and better pension systems for teachers and better means of safeguarding women in co-educational colleges, were the problems discussed by the National Educational Association in Madison Square Garden here today.

President J. W. Crabtree of the State Normal School, River Falls, Wisconsin, insisted that schools and colleges of education have been unable to meet the demand for trained specialists because they have been "bound and gagged by college practices, traditions and prejudices." The normal schools he declares is a national asset even more so than the state agricultural college and should be so treated by the national government in the distribution of national aid for education.

President Joseph Swain of Swarthmore College advocated a reasonable salary increase and a joint teacher assessment and public taxation plan of pensioning public school teachers. Josephine Cordes Preston, superintendent of public instruction of the State of Washington, outlined a definite plan by which cottage homes for teachers may be provided in every rural school district.

The progress in Chinese education was discussed by V. K. Wellington Keo, ambassador from China to the United States. Mary Beal Housel, dean of women, Mr. Union College, Alliance, Ohio, in an address before the conference of deans of women, advocated as close supervision of the recreation hours of women as of their dusty hours in co-educational institutions. The nominating committee elected by the delegates from all states, will report the officers for the ensuing year at the general session, tomorrow.

Milroy Chautauqua July 8, 9, 10, 11, 12

## ASSEMBLY WILL BEGIN SATURDAY

Program for Milroy Chautauqua Received Here Shows Wealth of Fine Talent

GRAND OPERA IN THE LIST

Will Also be Lectures by Notable Persons and Concerts by Excellent Companies

Programs for the annual Milroy chautauqua, which will begin next Saturday and continue until Wednesday July 12, have just been received here and reveal a wealth of good talent that deserves large audiences and that will undoubtedly attract many people from Rushville and other parts of the county.

At 2:30 p. m. Saturday the program will be opened with a concert by Lauritano's Symphony orchestra, which won first place in the orchestra competition at the Italian exposition in Naples. Sharing with her gifted father the honors of leadership is little Inez Lauritano, a violinist seven years of age. At a recent concert in New York she appeared with the stars of the Metropolitan Opera company. Adding to the notable program of the company will be the work of such soloists as Signor Gaetano, Manno, dramatic tenor, and Miss Anna Rodier, soprano. The company will also give a concert in the evening.

On Saturday afternoon at 3:15 Andrew Johnson, humorist, will lecture on the subject, "Eli and Dennis." Johnson is said to be a chaser of the "blues" that is unexcelled. The program Saturday evening following the concert will be given by J. Benton Wirt, who is introducing Chronophotographs to the chautauqua platform. The pictures that will be thrown on the screen will be scenes and incidents about Milroy and many other amusing and interesting episodes. There will also be an illustrated lecture that evening on the subject, "The Making of a Magazine."

The second day—Sunday—will open in the afternoon at 2:30 with a concert by the Elmer Crawford Adams company of Boston, headed by Adams, who is known as the wizard of violin. With him will be Minnie L. Sample, soprano, and Roseth Breed. Following the concert a lecture by Fred Riemann on "Music—Its Yesterdays and Tomorrows," illustrated by music on a Victrola, will be given. In the evening after a thirty-minute concert by the Adams Co., "Publicity," a wholesome comedy, will be presented by the Boston Comedy Players.

The program for Monday consists of a concert in the afternoon by the Apollo Concert company and a lecture in the evening by Dr. Arthur Walwyn Evans, preceded by another concert by the Apollo company. This company consists of five geniuses who can play, and in fact do play, all sorts of instruments. There are three men and two women in the company. Evans is a Welshman of much ability and is said to be a blood relative of David Lloyd-George the English statesman.

On Tuesday afternoon Judith Hampton Lyndon and Elsie Mae Gordon, called the two cleverest women entertainers in chautauqua work, will give an entertainment, followed by a lecture on the subject, "The Fiddler and the Fire," by Fred G. Bale, of the Columbus, O., juvenile court. The Lyndon-Gordon company will give a concert in the evening and Marlo, wonder worker in magic and illusions will entertain the audience. Mystery and mirth are combined in large measures by Marlo, it is said.

The last day of the chautauqua—Wednesday—will probably be the most notable one because of the appearance that day of Samoloff, the great Russian tenor, and assisting artists. Following a concert in the afternoon by Miss Vivian Holt, soprano of the Metropolitan Opera, New York; Mdme. Jessica Symonds, violinist, and Miss Lillian Rosedale,

## 350,000 ACRES OF LAND IN RAFFLE

Uncle Sam Throws Open Large Tract to Homesteaders—Books to Close on July 22

GOOD FOR STOCK RAISING

Spokane, Wash., July 6—Land-officers were thrown open today for those who want to participate in one of Uncle Sam's last great land-rafts.

Approximately 350,000 acres, comprising the south half of the Colville Indian reservation, will be divided into 160 acre ranches and turned over to settlers who hold the lucky numbers after drawing July 27.

Registration books opened today in Spokane, Wenatchee, Wilbur, Republic, Omak and Colville, Wash. They will close July 22, and a week later the lucky numbers will be drawn out, entitling the holder to a choice of 160 acre tracts.

The Colville reservation is less than 50 miles from Spokane. It extends from the Columbia river on the east and south to the Okanogan river on the West. It is about 70 miles east and west, and 40 miles north and south.

The elevation varies from 1000 to 6000 feet.

Stock raising probably will become the greatest industry of the land thrown open to entry.

"But," you say, "I brush my teeth regularly, yet they decay." Yes, you brush them, but do you REALLY CLEAN them? Tonight, after brushing your teeth, examine them closely. You will likely find an accumulation of tartar on the enamel and bits of food deposit hiding in the crevices.  
Decay, as well as the dangerous gum disease called Pyorrhea, usually develops only in the mouth where germ-laden tartar is present.  
SENRECO, the formula of a dental specialist, keeps the teeth REALLY CLEAN. It embodies specially prepared soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea.

## BODIES OF NINE HEROES EXHUMED

Remains of Captain Boyd, Lieut.

Adair and 7 Negro Troopers Are Recovered

WERE KILLED AT CARRIZAL

(By United Press.)

El Paso, Texas, July 6.—Dug up from shallow graves at the scene of the Carrizal fight, the bodies of Captain Boyd, Lieutenant Adair and seven negro troopers were brought back to El Paso in a box car today. The Carranza authorities determined that there should be no demonstration at the international bridge which was thronged by citizens and soldiers anxious to do honor to the nation's heroic dead.

The throng waited, not knowing that a switch engine had passed to the American side from Juarez hauling an old box car which carried the remains home.

The nine caskets were placed in the freight car by the Carranzista military authorities in Juarez and the car was sealed. On the American side the caskets were placed aboard motor trucks and each draped with the national colors. Later a detachment of the Eighth cavalry was to escort the trucks to an undertaker's parlor for the bodies to be prepared for burial.

**The Homing Rooster.**  
Homing pigeons are familiar, and cats, as everybody knows, have an unconquerable tendency to "come back," while their nine lives last. Chickens are scatter-brained, irresponsible critters, given rather to straying abroad than finding their way home. But New York boasts of a rooster that overthrows all chicken traditions.  
A month ago there was a poultry show in Madison Square Garden, and among the birds shown was a prize rooster valued at \$250, from Port Jervis, N. J. When the exhibits were being crated for shipment after the show, this rooster escaped. Nothing more was seen or heard of him. He was given up for lost. And then, four weeks later, just the other morning, when Albert Monroe, his owner, went out to feed his flock, there was old Mr. Prize Rooster back home again.  
He didn't strut about the yard as of yore. He stumbled feebly, weak from exposure and lack of food. His feet were calloused and swollen. How he got back from the big city, a distance of eight miles, is a matter for conjecture. Mr. Monroe inclines to the opinion that he started to fly home, but wearied of the air route

and walked the rest of the distance, all through sheer homesickness. And as the neighbors say, "Now, what do you think of that?"

No wonder we have so many big paunches in this country. Forty-five per cent of the incomes is spent for food.

Georgia employs practically all of her county prisoners in the construction of good roads. It's one way of improving them, anyway—the roads, of course.

The Michigan peach crop, they say, is never a failure. And, to be sure, neither are our feminine peaches.

President Wilson owes most of his strength as a national figure to his phrase-making. In this he has been at his best usually, although at times he has fallen into such awkward expressions as "too proud to fight" which will ever crop up to plague him. It is, however, difficult to follow Wilsonian wordmoxing in one of his recent effusions. He said: "I shall never myself consent to an entangling alliance, but would gladly assent to a disentangling alliance." What is a disentangling alliance? What entanglements are we in that we should be disentangled? Does it mean anything.

The 1916 campaign will be Woodrow Wilson versus the Republican party. Democracy is Wilson; he dictates its every policy; he uses the club on the Democratic House of Representatives; he uses the whip on the Democratic Senate; he writes the party platform. He is the party. Of course Mr. Wilson is an asset. Democracy without him would not today figure as much as it does, but Woodrow Wilson is also a liability, as the campaign will undoubtedly show.

Half the civilized world is engaged in the greatest war in history. The United States is enjoying the greatest export trade ever enjoyed by any country in history. Which is just as plain as that two and two make four.

"I am constantly reminded, as I go about as I do sometimes at the week-end of the personal inconvenience of being President of the United States." This reminder was not present when Woodrow violated the single term plank of the Baltimore platform.

Wilson took a day off to explain what he meant by disentangling alliances. It now looks as if he would have to explain the meaning of "universal voluntary training."

One-third of the employees of shoe factories in the United States are women. Of course, they ought to vote.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. ## HUNDRED LEADING HOOSIERS

**John W. Foster**  
Without question John W. Foster is the greatest diplomat ever produced by Indiana. Foster was born in Pike county in 1836 and was educated at Indiana University and Harvard University. Foster served through the Civil War and following the war was editor of the Evansville Journal.

Foster was appointed minister to Mexico by General Grant, was transferred to St. Petersburg, transferred to the post at Spain by President Arthur and continued as the United States minister to Spain by President Cleveland.

Foster's real skill as a diplomat was shown when he conducted for this country the negotiations in the seal fisheries dispute with Great Britain. Foster served one term as secretary of state being appointed in 1892.

**Henry Lane Smith.**  
Henry Smith Lane is known in Indiana history as a prominent lawyer, citizen and political orator but he is especially known as the man who was governor of Indiana for ten days. The last distinguishing mark came in 1860 when Lane was elected governor on the ticket with Morton for lieutenant-governor, but in pursuance of an antection agreement was chosen United States senator ten days after his inauguration as governor.  
Lane was elected to the United States senate by the legislature in 1857 but the senate denied him admission on his credentials, holding no vacancy existed.  
Lane was born in Kentucky, Feb. 11, 1811. In 1835 he moved to Crawfordsville. Lane was elected to Congress in 1840 and again in 1841. He was a warm friend of Henry Clay. He died in 1881.

## GUARDSMEN DIG TRENCHES

Are not for Protection However but as Matter of Punishment

Fort Benjamin Harrison, Indianapolis, July 6—The Indiana national guardsmen are digging trenches every day but not for protection against the Mexicans. The troops of the Kaiser have nothing on some Indiana militiamen in trench-digging.

Digging a trench or hole and then filling it up is best discipline yet found at Camp Ralston, guard officers said today. Visitors to the camp who see men busy digging holes in the hard parade ground are informed that the diggers are men who have broken some rule of the camp and that the holes are not to crawl into for protection against Mexican bullets. Not only must the holes be dug but they must be filled up and under the boiling July sun one lesson is usually enough.

## TROOP PROPOSED FOR RUSHVILLE

Plans Made to Organize Cavalry to  
be one of Twelve to Form  
New Indiana Regiment

FIRST COME FIRST SERVED

John H. Kiplinger is Told of Plan  
in Letter From General  
Bridges

With the entrainment today of the Indiana National Guard for the Mexican border local interest in the Mexican situation received a boost by the announcement that an attempt would be made to organize a troop of cavalry in Rush county.

John H. Kiplinger is heading the movement here for the formation of a cavalry troop to be one of the twelve troops in the regiment recently authorized to be formed in Indiana as an added unit to the national guard.

Mr. Kiplinger has received a letter from Adjutant General Bridges in which it is stated that Washington has authorized the organization of a regiment of cavalry. It was stated that if it was desired to organize a troop it should be done at once as the first twelve troops which come properly officered will be accepted.

Troops to form the new regiment are now being organized at Fort Wayne and Evansville and it is believed that sufficient interest will be shown to make the organization here a success. Under the government regulations each troop of cavalry is composed of 100 men and three officers. Under the new Federal law the Indiana National Guard is entitled to 12,000 men and this proposed regiment will be a part of them.

It is believed here that the troop can be secured from Rushville and Rush county, but if necessary other counties will be asked to send recruits. There is not much chance of the new regiment getting to see service at this time, but for future use and as a means of training the men, the proposed troop here, according to those interested, would be a fine thing. The government furnishes all the equipment, including horses.

While no definite steps have been taken towards securing recruits, it is more than likely that something along this line will be started soon as it is necessary for the troop here to be one of the twelve if it is to get in on the new regiment.

(By United Press.)  
Washington, July 6.—Routing 250 revolutionists, killing 27 and capturing 5, the American forces advancing on Santiago, San Domingo, last Saturday suffered casualties of one killed, one seriously wounded and seven slightly hurt.

The rebels were entrenched in a concealed position and this prevented Americans from using their artillery in the advance.

## TAX EQUALIZATION DATES ARE FIXED

Rush County is in Group Which Will  
be Heard by State Board  
on July 25

TAXPAYERS MAY BE PRESENT

County Auditor A. R. Holden has received an announcement from the state board of tax commissioners fixing the dates on which it will take up the question of tax equalization in the various counties. Rush county is the first group of counties whose hearings will be held on Tuesday, July 25, beginning at 9:30 a. m.

The purpose of the meeting is to consider the assessments of the personal property of each county, for the purpose of equalizing the assessments and for the purpose of considering the matter of increasing the assessments of personal property, and to determine the rates of addition of reduction from the listed valuation of this class of property.

The hearings are to be at the statehouse and the board's order warned that "this hearing should not be confused with hearings upon appeals from county boards of review, as its purpose is to equalize the various counties of the state and not to redress individual grievances." Taxpayers, however, may be present if they desire.

Reply Will be Made

NEGOTIATIONS TO BE BEGUN

Washington, July 6.—Following a conference with President Wilson, Secretary Lansing today said a reply would be sent to General Carranza by this government. It will go forward soon. It was also learned that negotiations with the Carranza government will be taken up through the customary diplomatic channels.

It is probable Secretary Lansing will begin work at once on the reply to Carranza. It is possible he will have it ready to present to the cabinet tomorrow before he leaves for a month's vacation.

What the reply will embody was gone over thoroughly by the president and Lansing during a 45-minute talk. No mulling of its contents, however, would be learned.

## SPECIAL VENIRE FOR BUNCH TRIAL

Talesman Arrive From Henry County to be Examined for Jury in Muncie Graft Case.

(By United Press.)  
Muncie, Ind., July 6.—Six members of the special venire of twenty-five, drawn in Henry county this morning for the trial of Mayor Bunch for conspiracy to solicit and accept bribes, had arrived here at noon. The veniremen were summoned on application by Judge Alonzo Blair when it became evident Wednesday evening that an unbiased jury could not be obtained in Delaware county because of the wide publicity given the so-called city graft cases.

Efforts to seat some of the Delaware county veniremen this morning failed. All said they had opinions as to the guilt or innocence of the accused.

## MAY END IN WITHDRAWAL

Peaceful Note From Carranza Paves Way to This End

(By United Press.)

Washington, July 6.—The American punitive expedition will not withdraw from Mexico merely on the strength of Carranza's friendly note, it was officially learned today. Indications were, however, that the document paved the way for discussion which may ultimately end in withdrawal and the establishment of border patrols by both countries.

## STANDS BY ITS ORIGINAL ORDER

War Department Holds Militia is Needed on Border While Negotiations Take Place

TO PROTECT AGAINST RAIDS

(By United Press.)  
Washington, July 6.—Though convinced that danger of war with Mexico has passed, the war department today stood by its original intention to send all the militiamen originally called to the border.

It had been suggested that all forces not already entrained might be held at their base mobilization camp but the department said officially today there has been no change in plans and that none is in prospect.

Aside from the advantage of mobilization and the experience of border patrol the department deems it advisable to protect the border against raids while negotiations are in progress.

## WANT NO DELAY ON STREET PAVING

County Commissioners Expected to Fight it out With First and Eleventh Street Contractor

HE WANTS TO HOLD UP WORK

The county commissioners expected to fight it out this afternoon with A. L. Tribble of Terre Haute in regard to the time for commencing work on the paving of First and Eleventh streets. A. L. Tribble & company was awarded the contracts for both improvements—the First street job at a cost of \$25,820 and the Eleventh street job at \$33,218.

The mayor and members of the city council were to appear before the commissioners late this afternoon and protest against any delay in paving First street with brick. The street would have been improved by the city, but the commissioners were allowed to go ahead with the work under the three-mile law with the understanding that it would be done this summer.

The contractor was here today and it was understood that he told several persons he expected to put the work off if possible. Some protested against giving him both contracts, but he promised to get started soon after the award was made. Tribble told the commissioners this afternoon to select the brick and he would begin work. They got busy at once.

## INDIANA GUARD IS CALLED TODAY

Entrainment Begins at Dawn and it is Expected First Soldiers Will be on Way by Night

DESTINATION IS UNKNOWN

Batteries A, B, and C. Will be First to Leave Camp Ralston at Fort Harrison

(By United Press.)  
Fort Benjamin Harrison, Indianapolis, Ind., July 6.—The entrainment of the Indiana National Guard mobilized at Camp Ralston began at dawn today and before tonight it is expected the first Indiana soldiers will be on their way to "somewhere on the Mexican border."

Entrainment orders were received by Lieutenant Colonel John T. Toffey, chief mustering officer, shortly after midnight but the guardsmen were not told until this morning. The orders as issued by Major General Barry of the central department authorized the movement of all Indiana troops "to the south" which means to the Mexican border. The exact destination will not be made public.

It will be several days before the entire guard can be entrained, according to officers. The artillery battalion consisting of Battery A of Indianapolis, Battery B of Purdue university and Battery C of Lafayette began entraining this morning and will be the first to leave. The probable order of leaving for the rest of the troops, according to Lieut. Col. Toffey, is as follows:

Third infantry regiment, the special troops which consist of the Indianapolis signal corps, the field hospital company and the Frankfort ambulance company, then the First infantry regiment and the Second infantry regiment.

At two o'clock this afternoon the artillery battalion equipment had been loaded and it appeared that the first Indiana soldiers might get away before four o'clock this afternoon. The troops will travel over the Big Four via St. Louis in day coaches. While officials would say nothing there was a well defined rumor about Camp Ralston that the Indiana troops would go to Brownsville, Texas.

## FIVE RUSHVILLE BOYS GO

Leaving Some Time This Evening With Battery B. for Border

Five Rushville boys will entrain with Battery B. when it leaves for the border some time this evening. They are: Allan H. Blackledge, son of Mr. and Mrs. John C. Blackledge; Walter Gartin, son of Mr. and Mrs. James Gartin; Frank Owens, son of Mr. and Mrs. H. C. Owens; Dr. Hale Pearsey and Fred Beale, Jr. When apprised this morning by the Daily Republican that the Indiana militia had been ordered to entrain, relatives of some of the enlisted men from here left for Indianapolis to bid them farewell.

New York, July 6.—Twenty-four new deaths in New York's great epidemic of infantile paralysis were reported to the health department up to ten o'clock today, making a total of 174 deaths since the first case was reported. All were under the age of seven. Physicians reported 133 new cases today, making a total of 756.

National Education Association Considers Better Pension System For Old Teachers.

IS AFTER NATIONAL AID

Progress of Chinese Education is Discussed by Ambassador to This Country.

(By United Press.)

New York, July 6.—National aid for state normal schools, higher salaries and better pension systems for teachers and better means of safeguarding women in co-educational colleges, were the problems discussed by the National Educational Association in Madison Square Garden here today.

President J. W. Crabtree of the State Normal School, River Falls, Wisconsin, insisted that schools and colleges of education have been unable to meet the demand for trained specialists because they have been "bound and gagged by college practices, traditions and prejudices." The normal schools he declares is a national asset even more so than the state agricultural college and should be so treated by the national government in the distribution of national aid for education.

President Joseph Swain of Swarthmore College advocated a reasonable salary increase and a joint teacher assessment and public taxation plan of pensioning public school teachers. Josephine Conlies Preston, superintendent of public instruction of the State of Washington, outlined a definite plan by which cottage homes for teachers may be provided in every rural school district.

The progress in Chinese education was discussed by V. K. Wellington Keo, ambassador from China to the United States. Mary Beal Housel, dean of women, Mt. Union College, Alliance, Ohio, in an address before the conference of deans of women, advocated as close supervision of the recreation hours of women as of their dusty hours in co-educational institutions. The nominating committee elected by the delegates from all states, will report the officers for the ensuing year at the general session, tomorrow.

Milroy Chautauqua July 8, 9, 10, 11, 12

## ASSEMBLY WILL BEGIN SATURDAY

Program for Milroy Chautauqua Received Here Shows Wealth of Fine Talent

GRAND OPERA IN THE LIST

Will Also be Lectures by Notable Persons and Concerts by Excellent Companies

Programs for the annual Milroy Chautauqua, which will begin next Saturday and continue until Wednesday July 12, have just been received here and reveal a wealth of good talent that deserves large audiences and that will undoubtedly attract many people from Rushville and other parts of the county.

At 2:30 p. m. Saturday the program will be opened with a concert by Lauritano's Symphony orchestra, which won first place in the orchestra competition at the Italian exposition in Naples. Sharing with her gifted father the honors of leadership is little Inez Lauritano, a violinist seven years of age. At a recent concert in New York she appeared with the stars of the Metropolitan Opera company. Adding to the notable program of the company will be the work of such soloists as Signor Gaetano, Manno, dramatic tenor, and Miss Anna Rodier, soprano. The company will also give a concert in the evening.

On Saturday afternoon at 3:15 Andrew Johnson, humorist, will lecture on the subject, "Eli and Dennis." Johnson is said to be a chaser of the "blues" that is unexcelled. The program Saturday evening following the concert will be given by J. Benton Wirt, who is introducing Chronophotographs to the chautauqua platform. The pictures that will be thrown on the screen will be scenes and incidents about Milroy and many other amusing and interesting episodes. There will also be an illustrated lecture that evening on the subject, "The Making of a Magazine."

The second day—Sunday—will open in the afternoon at 2:30 with a concert by the Elmer Crawford Adams company of Boston, headed by Adams, who is known as the wizard of violin. With him will be Minnie L. Sample, soprano, and Roselth Breed. Following the concert a lecture by Fred Riemann on "Music—Its Yesterdays and Tomorrows," illustrated by music on a Victrola, will be given. In the evening after a thirty-minute concert by the Adams Co., "Publicity," a wholesome comedy, will be presented by the Boston Comedy Players.

The program for Monday consists of a concert in the afternoon by the Apollo Concert company and a lecture in the evening by Dr. Arthur Walwyn Evans, preceded by another concert by the Apollo company. This company consists of five geniuses who can play, and in fact do play, all sorts of instruments. There are three men and two women in the company. Evans is a Welshman of much ability and is said to be a blood relative of David Lloyd-George the English statesman.

On Tuesday afternoon Judith Hampton Lyndon and Elsie Mae Gordon, called the two cleverest women entertainers in chautauqua work, will give an entertainment, followed by a lecture on the subject, "The Fiddler and the Fire," by Fred G. Bale, of the Columbus, O., juvenile court. The Lyndon-Gordon company will give a concert in the evening and Marlo, wonder worker in magic and illusions will entertain the audience. Mystery and mirth are combined in large measures by Marlo, it is said.

The last day of the chautauqua—Wednesday—will probably be the most notable one because of the appearance that day of Samoloff, the great Russian tenor, and assisting artists. Following a concert in the afternoon by Miss Vivian Holt, soprano of the Metropolitan Opera, New York, Mme. Jessica Symonds, pianist, and Miss Marian Ross, soloist, will be the closing concert.

## 350,000 ACRES OF LAND IN RAFFLE

Uncle Sam Throws Open Large Tract to Homesteaders—Books to Close on July 22

GOOD FOR STOCK RAISING

Spokane, Wash., July 6—Land-officers were thrown open today for those who want to participate in one of Uncle Sam's last great land-rafts.

Approximately 350,000 acres, comprising the south half of the Colville Indian reservation, will be divided into 160 acre ranches and turned over to settlers who hold the lucky numbers after drawing July 27.

Registration books opened today in Spokane, Wenatchee, Wilbur, Republic, Omak and Colville, Wash. They will close July 22, and a week later the lucky numbers will be drawn out, entitling the holder to a choice of 160 acre tracts.

The Colville reservation is less than 50 miles from Spokane. It extends from the Columbia river on the east and south to the Okanogan river on the West. It is about 70 miles east and west, and 40 miles north and south.

The elevation varies from 1000 to 6000 feet.

Stock raising probably will become the greatest industry of the land thrown open to entry.

—by keeping your teeth REALLY CLEAN.

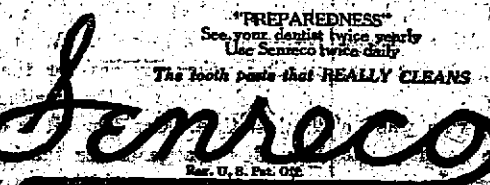

"But," you say, "I brush my teeth regularly, yet they decay." Yes, you brush them, but do you REALLY CLEAN them? Tonight, after brushing your teeth, examine them closely. You will likely find an accumulation of tartar on the enamel and bits of food deposit hiding in the crevices.

Decay, as well as the dangerous gum disease called Pyorrhea, usually develops only in the mouth where germ-laden tartar is present. SENRECO, the formula of a dental specialist, keeps the teeth REALLY CLEAN. It embodies specially prepared soluble granules, unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea.

## BODIES OF NINE HEROES EXHUMED

Remains of Captain Boyd, Lieut.

Adair and 7 Negro Troopers

Are Recovered

WERE KILLED AT CARRIZAL

(By United Press.)

El Paso, Texas, July 6.—Dug up from shallow graves at the scene of the Carrizal fight, the bodies of Captain Boyd, Lieutenant Adair and seven negro troopers were brought back to El Paso in a box car today. The Carranza authorities determined that there should be no demonstration at the international bridge which was thronged by citizens and soldiers anxious to do honor to the nation's heroic dead.

The throng waited, not knowing that a switch engine had passed to the American side from Juárez, hauling an old box car which carried the remains home.

The nine caskets were placed in the freight car by the Carranza military authorities in Juárez and the car was sealed. On the American side the caskets were placed aboard motor trucks and each draped with the national colors. Later a detachment of the English cavalry was to escort the trucks to an undertaker's parlor for the bodies to be prepared for burial.

Chase Russell spent last evening in Connersville, Ind., where he was attending to the remains of the fallen soldiers.

**The Homing Rooster.**

Homing pigeons are familiar, and cats, as everybody knows, have an unconquerable tendency to "come back," while their nine lives last. Chickens are scatter-brained, irresponsible critters, given rather to straying abroad than finding their way home. But New York boasts of a rooster that overthrows all chicken traditions.

A month ago there was a poultry show in Madison Square Garden, and among the birds shown was a prize rooster valued at \$250, from Port Jervis, N. J. When the exhibits were being crated for shipments after the show, this rooster escaped. Nothing more was seen or heard of him. He was given up for lost. And then, four weeks later, just the other morning, when Albert Monroe, his owner, went out to feed his flock, there was old Mr. Prize Rooster back home again.

He didn't strut about the yard as of yore. He stumbled feebly, weak from exposure and lack of food. His feet were calloused and swollen. How he got back from the big city, a distance of eight miles, is a matter for conjecture. Mr. Monroe inclined to the opinion that he started to fly home, but wearied of the air route

and walked the rest of the distance, all through sheer homesickness. And as the neighbors say, "Now, what do you think of that?"

No wonder we have so many big paunches in this country. Forty-five per cent of the incomes is spent for food.

Georgia employs practically all of her county prisoners in the construction of good roads. It's one way of improving them, anyway—the roads, of course.

A close friend occasionally looks up, says an exchange. But most friends, we note, are just beyond the border of closeness.

The woman who diplomatically allows her husband to think he is boss of the ranch will continue herself to rule the roost.

The Michigan peach crop, they say, is never a failure. And, to be sure, neither are our feminine peaches.

President Wilson owes most of his strength as a national figure to his phrase-making. In this he has been at his best usually, although at times he has fallen into such awkward expressions as "too proud to fight" which will ever crop up to plague him. It is, however, difficult to follow Wilsonian wordmixing in one of his recent effusions. He said: "I shall never myself consent to an on-tangling alliance, but would gladly assent to a disentangling alliance." What is a disentangling alliance? What entanglements are we in that we should be disentangled? Does it mean anything.

The 1916 campaign will be Woodrow Wilson versus the Republican party. Democracy is Wilson; he defeats its every policy; he uses the club on the Democratic House of Representatives; he uses the whip on the Democratic Senate; he writes the party platform. He is the party. Of course Mr. Wilson is an asset. Democracy without him would not today figure as much as it does, but Woodrow Wilson is also a liability, as the campaign will undoubtedly show.

Half the civilized world is engaged in the greatest war in history. The United States is enjoying the greatest export trade ever enjoyed by any country in history. Which is just as plain as that two and two make four.

"I am constantly reminded, as I go about as I do sometimes, at the week-end of the personal inconvenience of being President of the United States." This reminder was not present when Woodrow violated the single term plank of the Baltimore platform.

Wilson took a day off to explain what he meant by disentangling alliances. It now looks as if he would have to explain the meaning of "universal voluntary training."

One-third of the employees of shoe factories in the United States are women. Of course, they ought to vote.

Honesty is the best policy and will take you a long ways, but thievery often pulls down the biggest plums.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by Dr. J. C. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

 John W. Foster  
 Without question John W. Foster is the greatest diplomat ever produced by Indiana. Foster was born in Pike county in 1835 and was educated at Indiana University and Harvard University. Foster served through the Civil War and following the war was editor of the Evansville Journal.

Foster was appointed minister to Mexico by General Grant, was transferred to St. Petersburg, transferred to the post at Spain by President Arthur and continued as the United States minister to Spain by President Cleveland.

Foster's real skill as a diplomat was shown when he conducted for this country the negotiations in the seal fisheries dispute with Great Britain. Foster served one term as secretary of state being appointed in 1892.

**Henry Lane Smith.**  
 Henry Smith Lane is known in Indiana history as a prominent lawyer, citizen and political orator but he is especially known as the man who was governor of Indiana for ten days. The last distinguishing mark came in 1860 when Lane was elected governor on the ticket with Morton for lieutenant-governor, but in pursuance of an antecession agreement was chosen United States senator ten days after his inauguration as governor.

Lane was elected to the United States senate by the legislature in 1857 but the senate denied him admission on his credentials, holding no vacancy existed.

Lane was born in Kentucky, Feb. 11, 1811. In 1835 he moved to Crawfordsville. Lane was elected to Congress in 1840 and again in 1841. He was a warm friend of Henry Clay. He died in 1881.

**GUARDSMEN DIG TRENCHES**  
 Are not for Protection However but as Matter of Punishment

Fort Benjamin Harrison, Indianapolis, July 6.—The Indiana national guardsmen are digging trenches every day but not for protection against the Mexicans. The troops of the Kaiser have nothing on some Indiana militiamen in trench-digging.

Digging a trench or hole and then filling it up is best discipline yet found at Camp Reister, guard officers said today. Visitors to the camp who see men busy digging holes in the hard parade ground are informed that the diggers are men who have broken some rule of the camp and that the holes are not to crawl into for protection against Mexican bullets. Not only must the holes be dug but they must be filled up and under the hot July sun one lesson is usually enough.
